Dear Mr. Erich Hoffman,

Your students have been using Scholarships.com for years, finding scholarships and other valuable financial aid information on our site at no cost for over 12 years now. While we feel great about having played such an instrumental role in so many students' journeys to and through college, we figured we could do more. Turns out we were right.

When a student creates a profile at Scholarships.com, it serves more than just the singular purpose of finding money for college. They are also finding colleges and *colleges* are finding and recruiting *them*. We partner with colleges and universities all over the United States, any one of whom could be looking for students just like the ones you see in your school each day.

Colleges have anywhere from several to dozens of staff whose purpose is to find and recruit students based on any number of criteria and we help make sure they find them. With just one profile, your students can get matched to the school that is the best fit for them, perhaps even receive a generous financial aid package as well as additional scholarship money to help pay for their post-secondary education. And it's FREE.

If you would like some free, helpful financial aid brochures sent to your school, all you need to do is visit [www.scholarships.com/educators](http://www.scholarships.com/educators) to order them. Also, please consider linking to us ([www.scholarships.com](http://www.scholarships.com)) from your school's website to make sure your students are conducting a safe, productive scholarship search!

Sincerely,

Kevin N. Ladd
