September 13, 2017

Dear Parents and Guardians,

Welcome back! It is my hope that you were afforded an opportunity for many hours of family fun and relaxation over the summer. Winston Churchill once said “To improve is to change; to be perfect is to change often.” We are constantly in the process of organizational reflection for improvement at Manasquan. To that end lies the theme of my correspondence: the renovations to our high school.

As you have driven by the front of the high school, you have undoubtedly noticed the large cargo containers and mark outs that appear on the lawn. The renovation and construction project of the high school is being readied to begin by Kappa Construction who was awarded the contract. The high school renovation project is on schedule and is now in first phase which involves renovating the front of the building.

As of today, September 13, 2017 the front entrance on the north end of the building near the gymnasium is closed. You will also notice that the banners are on the outside of the fence leading to the entrance to the football field from the administrative parking lot. That gate will remain open as an entrance to the field as you will now walk on the opposite side of the fence.

Attached you will find an aerial view of the area and of the new fence line and renovation as they have begun.

Thank you for your patience and understanding during these renovations.

Yours in Education,

*Dr. Frank Kasyan*
