Dear Parents and Guardians:

The New Jersey Department of Education mandates that every year by October 1 each school district must provide parents or guardians certain information on state assessments. This information can be found summarized in the table on the next page, but I would first like to take a moment to focus on the relevancy of PARCC testing as well as the state graduation requirements.

- First and foremost, PARCC is aligned to the state's current academic standards that are guiding what and how your children are taught in class. In addition to providing an overall score in both subjects, the test also shows how well your child is performing in comparison to peers in his or her grade level, school and district, as well as useful information about your children's strengths and areas for improvement.
- PARCC is not meant to provide a complete picture of student achievement, but when combined with other measures, including teacher reports and student grades, it provides important information about your child's progress. Our staff utilizes this information as we plan for each year.
- The PARCC reports break down each subject tested into different categories of skills and show how well your child performed in each. This helps you and your child's teacher understand where your child is doing well and where he or she needs more support. You can use this information to guide a discussion with your child's teacher(s) about additional supports or challenges needed in class and other ways to support your child at home. Our teachers and principals use this information to improve classroom instruction and provide more effective and targeted support and professional development. We can also identify where your child has mastered content so we can provide more challenging work to continue to keep him or her engaged and making progress.
- These tests serve as an 'academic checkup.' Although they are only one measure of your child's progress, the scores on the PARCC test can be compared from one year to the next. The test is a useful tool to determine your child's performance and the level of progress and readiness for the next grade.

You will find a summary of the state assessments for the 2018-2019 school year on the following page. I have also included several pages from the Department of Education outlining the currently available graduation requirements and how they relate to these assessments.

Should you have any questions, please do not hesitate to contact me.

Yours in education,

Frank Kasyan, Ed.D.

High School Graduation Assessment Requirements

Updated May 2018

On August 3, 2016, the State Board of Education approved updated state regulations for the high school graduation assessment requirements in both English language arts (ELA) and mathematics for the Classes of 2016 through 2021 and beyond. These new state regulations ([N.J.A.C. 6A:8-5.1](#)) became effective on September 6, 2016 and are detailed below.

The Classes of 2018 and 2019 – Students graduating as members of the Classes of 2018 and 2019 can meet graduation assessment requirements through any of these **three pathways**:

- (1) Achieve passing scores on high school level PARCC assessments;
- (2) Achieve scores defined in the table below on alternative assessments such as the SAT, ACT, or Accuplacer; or
- (3) The submission by the district of a student portfolio through the New Jersey Department of Education’s (NJDOE) portfolio appeals process. (Special Education students, whose Individualized Education Plans (IEPs) specify an alternative way to demonstrate proficiencies, will continue to follow the graduation requirements set forth in their IEPs.)

The Class of 2020 – Students in the Class of 2020 can demonstrate graduation assessment proficiency through:

- (1) Pass the PARCC Algebra I and English language arts/literacy (ELA) grade 10 assessments

The following pathways are available to students after they have taken all applicable PARCC assessments for each of the courses in which they are enrolled:

- (2) Achieve scores defined in the table below on alternative assessments such as the SAT, ACT, or Accuplacer, PARCC ELA 9, ELA 11, Geometry, Algebra II; or
- (3) The submission by the district of a student portfolio through the NJDOE’s portfolio appeals process.

The Class of 2021 and Beyond – Starting with the Class of 2021, students will only have **two pathways** to meet the high school graduation assessments requirements:

- (1) Pass the PARCC Algebra 1 and English language arts/literacy (ELA) grade 10 assessments; or
- (2) The submission by the district of a student portfolio through the NJDOE’s portfolio appeals process, **assuming the student has taken all PARCC assessments** associated with the high school level courses for which they were **eligible* and received valid scores**.

Each school year the NJDOE will determine the proficiency level needed on the assessments to meet the requirements.

It is important to note that our students have always been able to meet graduation requirements through an alternative assessment or pathway to graduation throughout New Jersey’s forty-year history with a statewide assessment program, and will continue to be able to do so.

In this document, you will find charts containing the list of assessment requirements in both ELA and mathematics for the high school graduation Classes of 2018 through 2021.

*Note: * “Eligible” is defined as a student who is enrolled in a high school course for which there is a PARCC test and received a valid score. This includes all of these courses: Algebra I, Geometry, Algebra II, ELA 9, ELA 10, and ELA 11.*
