

# MANASQUAN SCHOOL DISTRICT

The Manasquan School District has adopted the Canvas Learning Management System (LMS) as our online platform for teachers and students to interact in a secure online environment. Students have access to Canvas using their school credentials and parents can also register.

Parents (also called observers) can create their own Canvas account and link it to their child's account so they can see assignment due dates, announcements, and other course content. Observers can *view* the course content but *cannot participate* in the course.

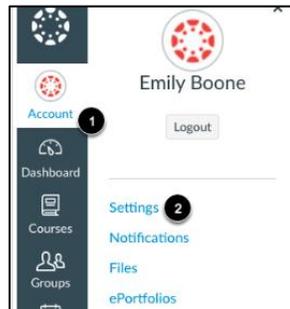

## Step 1: Your child must generate a pairing code from their account.

To link yourself to a student, you will need to enter a student-specific pairing code. Pairing codes are case sensitive and are valid for seven days. Students can generate pairing codes from their User Settings. A student must create a separate pairing code for each observer who wants to link to his/her account.

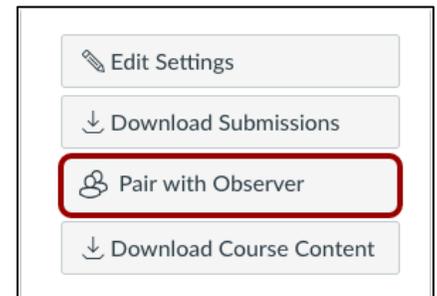

1. Have your child login to Canvas with their normal school login credentials.

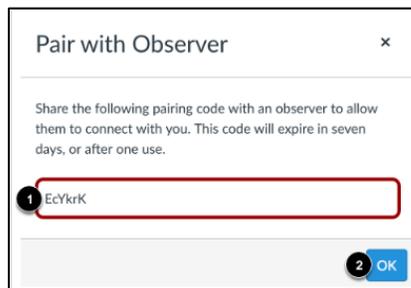

2. Open User Settings
  - a. In Global Navigation, click the **Account** link [1], then click the **Settings** link [2].

3. Click the **Pair with Observer** button (right side of screen).

4. Copy the six-digit alphanumeric pairing code [1]. You will need to share the code with the parent (observer) who will link to your account. The pairing code will expire after seven days or its first use. Note: Pairing codes are case sensitive.

- If you are new to Canvas and have not yet registered a parent (observer) account, *continue to Step 2.*
- If you already have an existing Canvas parent (observer) account and wish to add another student, *skip to Step 3.*
