

Treasure Map

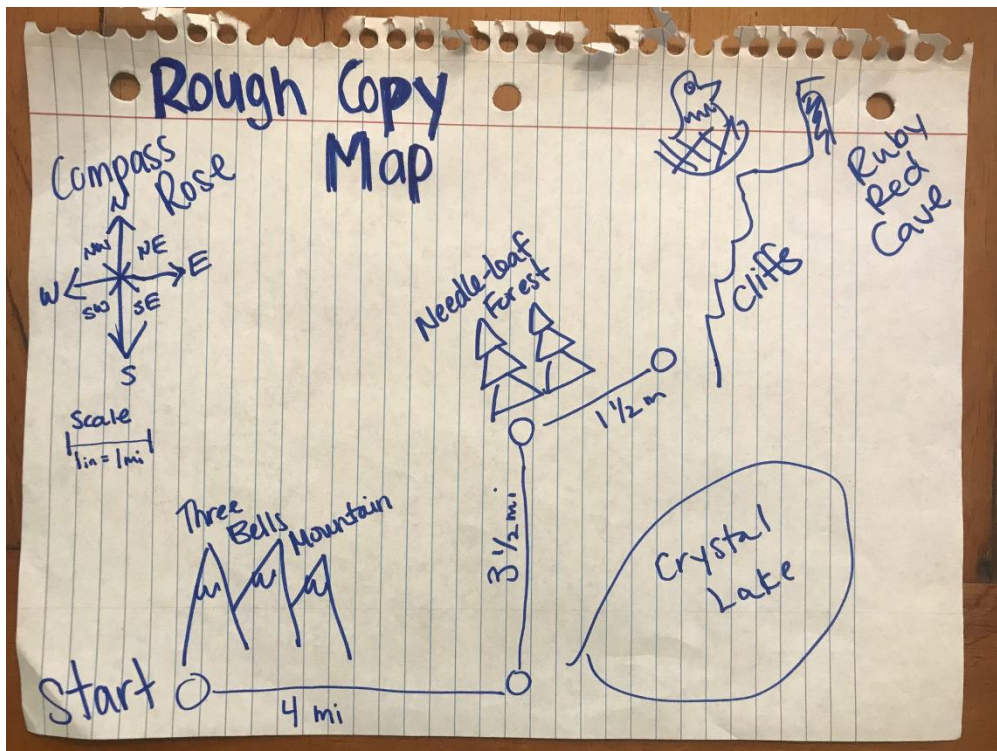

This week we are going to make a map that leads you to a buried treasure. There are directions that must be followed, so it is not just a drawing. We will also be writing directions to the treasure map, so this is a two-part project. You have the whole week to do it. Below is just a suggestion on how to space it out. Have fun with it.

Materials

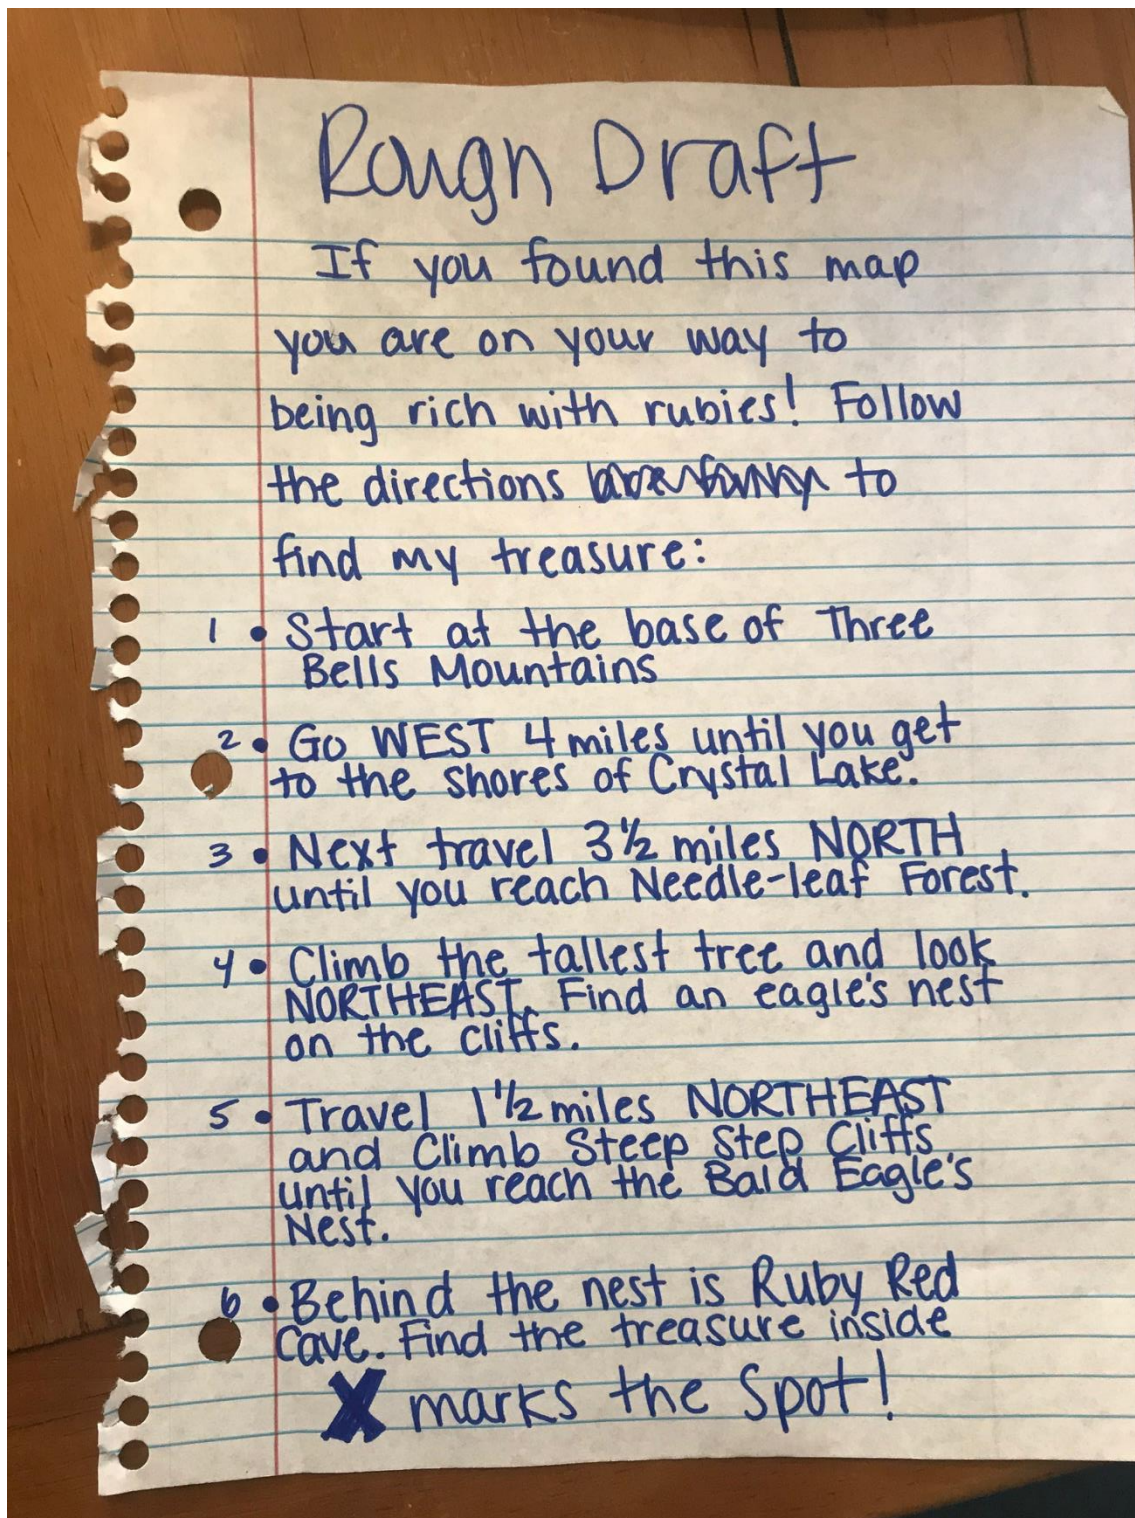

- ✓ Paper
- ✓ Pencil
- ✓ Ruler (if you don't have a ruler, use your index finger between 1st & 2nd knuckle is an about an inch)
- ✓ Markers/crayons/colored pencils

Monday- Make a rough copy of your treasure map. Think of good names for locations, how many miles (inches) away destinations are from each other, and that everything is properly spaced out. It's easier to write the directions if you have the map already done. You must include:

1. Compass rose with intermediate directions
2. Scale – 1 inch = 1 mile Your map will have to be to scale so you need a ruler
3. 3-4 destinations (do not do more than 5 destinations)
4. 4-5 directions/steps (do not do more than 6 directions)

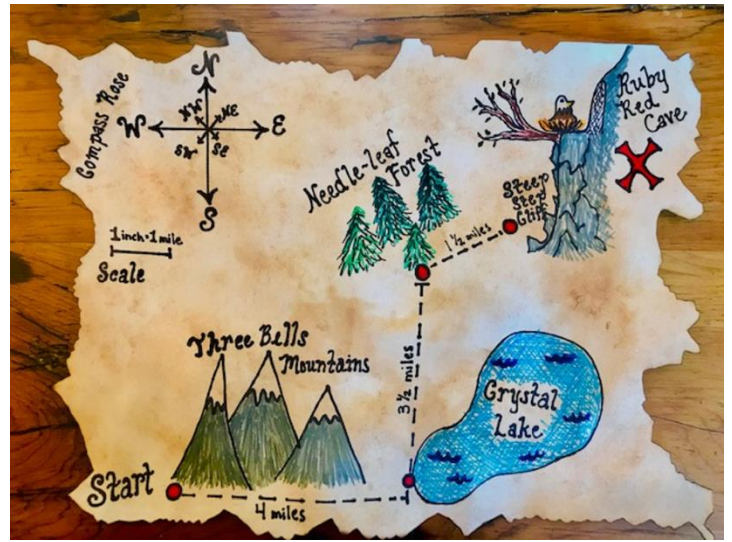

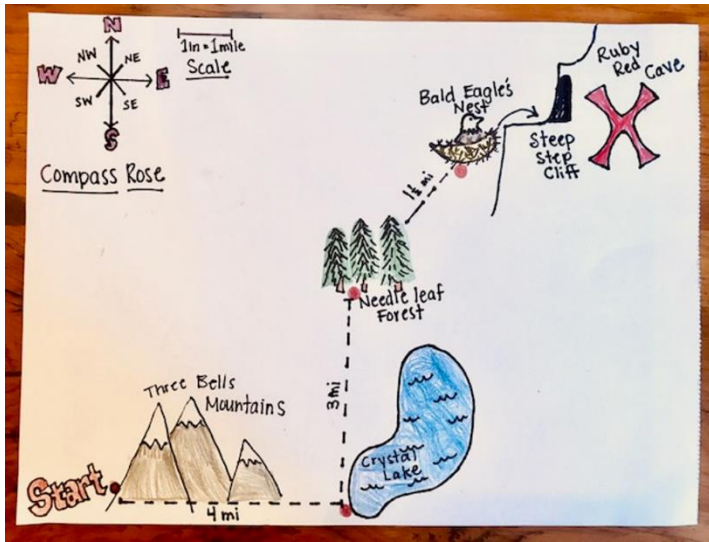

Tuesday- Start your rough draft for your writing. See example. Have an adult read it to make sure that the directions make sense and lead you to the treasure.

Wednesday/Thursday/Friday – Final copy of the map and the directions.

I made 2 maps that are equally acceptable. The second one I did in an “antique” style that may be fun to try, but not mandatory. Directions how to do the antique style are below.

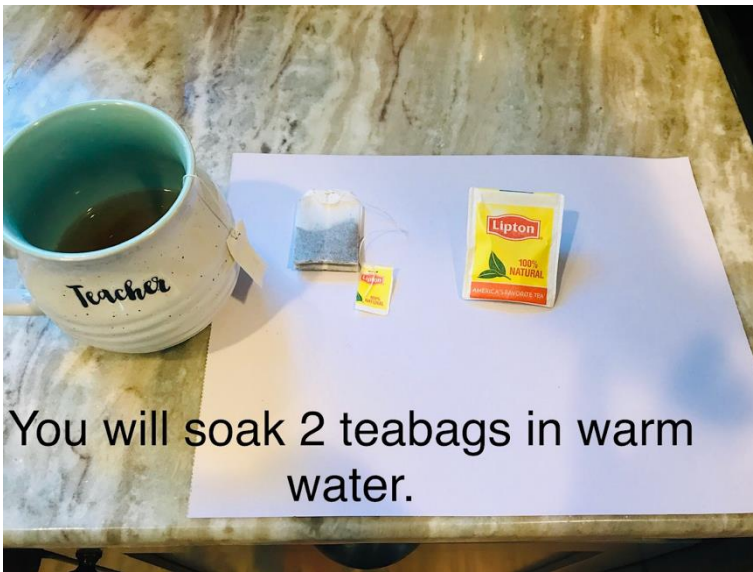

Treasure Map

If you found this map then you are on your way to being rich with rubies!!! Follow the directions to find the hidden treasure.

1. Start at the base of Three Bells Mountain.
2. Go WEST 4 miles until you get to the shores of Crystal Lake.
3. Next, travel 3 1/2 miles NORTH until you reach Needle-leaf Forest.
4. Climb the tallest tree and look NORTHEAST. Find the Eagle's nest on the cliff.
5. Travel 1 1/2 miles NORTHEAST and climb Steep Step Cliffs until you reach the nest.
6. Behind the nest is Ruby Red Cave. Find the treasure inside.

X marks the spot

Antique Style Step-by-Step

STEP 1

STEP 2

STEP 3

*****you need parent permission to do the edges, so have them e-mail me let them know how to do it*****
