Airplane Hang Time Project

For this project you will be making a paper airplane and running trials of how long it stays in the air. You will record your data and then create a bar graph of it.

Trial	Hang Time in the Air (in seconds)
1	
2	
3	
4	
5	

Bar Graph: Remember to give your graph a **title** and **label each side of your graph** so the reader knows what your graph is showing.
