

International Baccalaureate Diploma Program's Projected Pathways Guide

IB Coordinator: Jamie Onorato, ib@manasquan.k12.nj.us

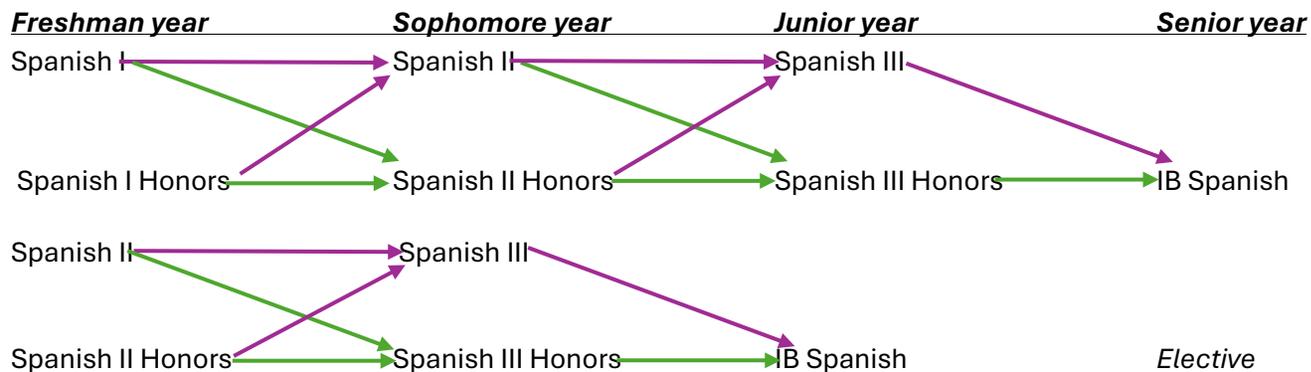

The International Baccalaureate curriculum includes courses of six different subject groups. A Diploma Program candidate needs to enroll in one from each of the six groups, as well as the Theory of Knowledge course. The Theory of Knowledge is a two-year course offered only to Diploma Program candidates. The only course that can be substituted is Group 6, Dance, and in its place, students may take Group 3, IB Psychology as their elective. You can read more about the subjects in Manasquan High School's course guide as well as <https://www.ibo.org/programmes/diploma-programme/curriculum/>.

NOTE: These pathways do not show every course offered beyond sophomore year; it only indicates possible pathways to IB courses. Orange indicates the least encouraged path, purple suggests another possible path, and green indicates the favored pathway.

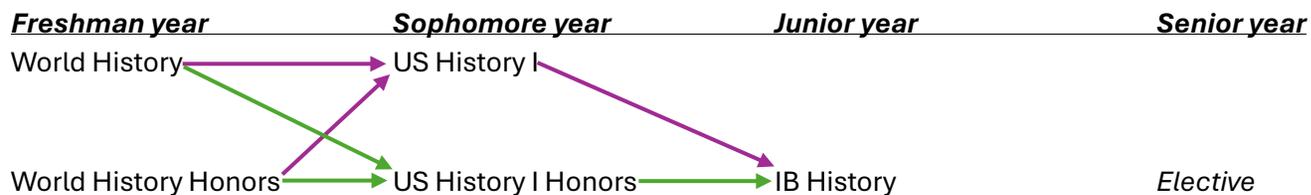

Group 1, Studies in Language and Literature: English Literature HL, 2-year course

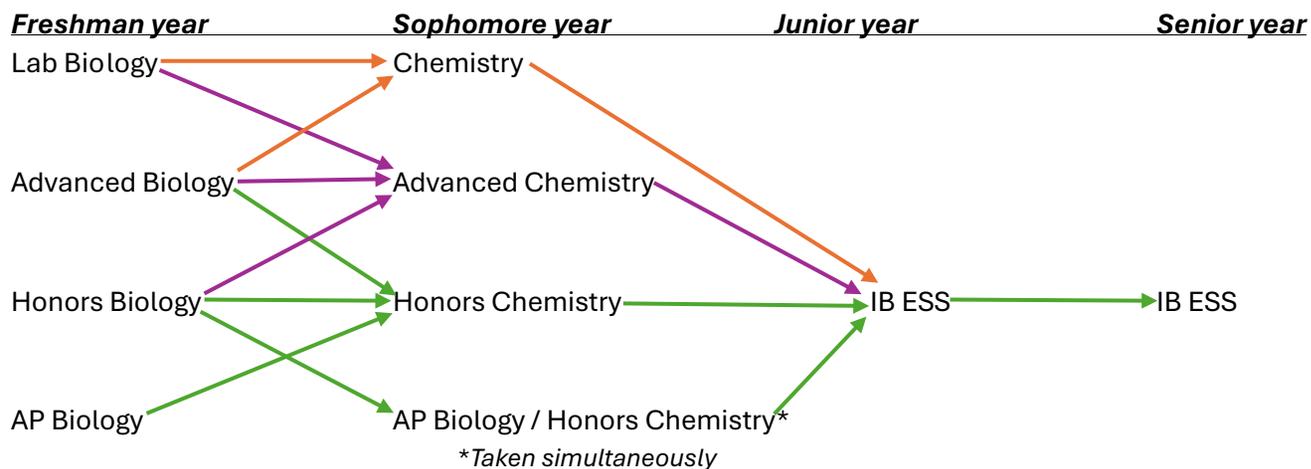

Group 2, Language Acquisition: Spanish B SL, 1-year course to be taken year two of the program

Group 3, Individuals and Societies: History SL (Riots & Protests and The Cold War), 1-year course to be taken year one of the program

Group 4, Science: Environmental Systems & Societies HL, 2-year course

International Baccalaureate Diploma Program's Projected Pathway Worksheet

The New Jersey and Manasquan High School's graduation requirements appear on the next page.

This page serves only as a worksheet and does not register you in any courses. You're encouraged to use this sheet when communicating with your guidance counselor about course selections.

Courses	Freshman Year	Sophomore Year	Junior Year	Senior Year
English
