

# cypHER 2025

Teaching middle school girls to code

3.22.25 // HTHS

## what is cypHER?

cypHER is a nonprofit web development workshop run entirely by female high school students at High Technology High School. Middle school girls will learn HTML, CSS, and Javascript fundamentals to create unique websites, as well as the basics of VEX Robotics and Arduino!

## event details

cypHER will be held on **March 22nd, 2025** from 8:45am to 4:00 pm at High Technology High School.

Attendance is completely **free**, and no coding or robotics experience is required. Registration will close when we reach **100 students**, so be sure to secure a spot!

## register + more info

Register for cypHER at [tinyurl.com/cypher2025](https://tinyurl.com/cypher2025), or visit [hthscypher.org](https://hthscypher.org) if you'd like to learn more!
