

The MES PTO is sponsoring our annual Science Day and we are seeking volunteers!

Who: We need **YOU** to help make this day a success!

What:

- Guide Volunteers to help escort the K-3 student groups to each experiment station – help during your child's class or for the day!
- Volunteers to support participating 4-8th graders at their experiment stations during the school day
- Science Experiment Parent Teams: While we have identified three (3) groups of parent volunteers to perform Science Experiments for the K-3 students, we may need additional volunteers to assist these established teams throughout the day.
- Volunteers to help during the 4th-8th grade evening showcase (6:00-7:00pm)

When: Thursday, April 11, 2024 (this is an all-day event, stay for the day or volunteer at a convenient time for you). NOTE: We will also have an evening showcase for 4th-8th grade from 6:00-7:00pm

Where: Manasquan Elementary School Gym

Why: Simply stated, because **SCIENCE IS FUN!**

How: If you are interested in volunteering for Science Day, or have general questions, please contact Amanda Kukulski at abclark0130@yahoo.com or 732-278-7400 as soon as possible.

****NO SCIENCE EXPERIENCE NEEDED****
